Good morning Betty,
We just had a visit from a parent who is quite upset about her son's commitment to your facility. Unfortunately, because we have not been informed or kept up to date, we were not able to discuss the situation with her and help quell her uneasiness. She had to tell us what was going on so I am, now, asking for some assistance. It is my understanding her son, CY, who is in Solutions had been having sex with a staff person. I realize there are other facility issues right now but I am quite distraught that we were not even notified that there were concerns involving one of our juveniles. We assure parents, at the time of commitment, that we are partners and will work together for the safety and ongoing care of their children and we have not been treated as such in this situation. I am not asking for all the information with the current law suit or what is happening with other juveniles but I do think we should be afforded the respect that we are part of the team that is working with this juvenile/family. CY was also sent to Choices for about five days and his PO was not notified of that decision or when he returned to Solutions or why this decision was made. I would appreciate any assistance you can give to help us understand our role with the Department of Juvenile Corrections and ongoing information in regard to the juveniles we send to your facility. Thank you.
Doris
