While on duty Friday Rhonda contacted Gracie Reyna by phone (Gracie was in the O&A control booth office and Rhonda was running the main control booth) Tom talked with Rhonda by phone on Friday as well and then Tom caught Rhonda bending the ear of Addison Fordham at work on Friday. Tom reported all of this to me today. So indeed she is stirring the pot while on duty.

Betty, I talked with Sharon and I believe that the decision is to let this run its course. However, Rhonda should not be doing these types of activities on work time---I think that may be hard to monitor but if you find it is happening on work time let me know.

Thanks...Julie
