Oh, I am always busy at work. Contemplating applying for another job that has opened up in my office. It would be a lateral transfer for me. It would get me out of the one I sit in now. I used to love it but my boss feels threatened and I have been slowly pushed back.

I have to pick up my kid right after work today. I hope I can come soon I played it over and over in my head last night.

Some day I will be more than just sex to someone.

I am sorry, I can't do this. I can't be a part of hurting someone else. The Idea of you and I doing something like that is HOT but then shortly after that thought comes I think about how it would really hurt if it was me. I think you should suppress this fantasy of yours if you love your girlfriend. I think if it is more than just a fantasy you should think long and hard about breaking it off with her. If it is because you don't want to be with her anymore the kindest thing to do is end it before you cheat on her.
