I think I know who runs the prison at my facility.  
I am totally livid but must not be when I address him.  
KW could have been taken out of isolation on Tuesday and separated from DP then. We have had 3 empty beds in O&A all week.

Policy and our protocol clearly states that with an (Aggravated) assault (with charges filed) the juvenile is on lockdown for 72 hours. We discussed the matter in team meeting yesterday because everyone agreed that KW has been a model juvenile while in SM, however staff unanimously decided to keep the 72 hours so the other juveniles would know that we follow through on the consequences spelled out in the O & A handbook. While separated from DP, KW is great, but we have serious safety concerns with he and DP being in the same room together (Gym). We have moved KW to South 7 so he and DP will be separated during school and PE.

I don't see from your response that you understood me.  
Please review again and respond.

He is in South 7 as we speak. His lockdown ended 13 minutes ago as was described in the original Due process report and IR.

KW was placed in lockdown on Monday evening 9/26/11 after assaulting a peer

In reviewing your staff's reports on this juvenile I have serious concerns regarding the continued lockdown that is not justified.

WEST POD PASS DOWN 9-27-11

COUNT 7 PLUS 1 IN SM

CLASS TAUGHT ON LEVELS OF DEVELOPMENT ONE HOUR

West pod did a very good job of following instructions, staying on task, positive peer interactions and compliance with program expectations.

DP - off room time at 4:30pm. He did struggle with being in his window after bed time and received negatives.

EL - had to be redirected to stay out of his window after bed time. He received negatives.

The remainder of West pod had a positive attitude and behaviors.

KW SM-1 positive attitude and behavior, no problems shown. He spent most of the afternoon and evening doing school work.

Dhottell

PASS DOWN FOR 9/29/11

CLASON

KW

He was in lock down all day long. He had an amazing attitude and was well behaved. He worked hard all day long on his school work and kicked a ball around. Did all that he was asked with out any complaining.

There was no mention of KW on 9/28/11, which is concerning as well.

We have been over this time and again. We place a juvenile in isolation/segregation when their behavior is a safety issue Isolation/segregation is to be terminated with there are no longer safety concerns.

I trust I will not have to go over this again with you.

Please respond to this email Tom.

Thanks
